ASK FATHER

Question: How do the dinosaurs fit into God’s creation?

Answer: The Book of Genesis tells us: “Then God said, ‘Let the earth bring forth all kinds of living creatures: cattle, creeping things, and wild animals of all kinds’ ” (1:24). Dinosaurs are one example of “living creatures”. The author does not list all the possible animals God created. But God created dinosaurs for the same reason He created all the other animals, as signs of His love, creativity, and care. They were part of His created order, and were good. They, like all things, passed away after a certain amount of time, but fortunately we can study them based on fossils and other evidence of their existence left behind after millions of years.

Questions to Ask Father can be left in the wooden box at the east entrance of church or emailed to: AskFather600@gmail.com or find us on Facebook.

Adoration will conclude at 5:45pm with benediction.
